SUMMARY

Front-end Developer with 1+ years of Experience and strong skills in HTML, CSS, JavaScript and React, with a passion about writing clean code, improving user experience, and continuously learning modern web technologies. Experienced in building E-commerce platforms and modern web application projects. I'm committed to delivering solutions that not only meet but exceed your expectations.

EXPERIENCE

Front-End Developer 2025 – Present

- Developed and maintained multiple front-end web applications using HTML, CSS, JavaScript and React.
- Built responsive and user-focused interfaces, ensuring compatibility across devices and screen sizes.
- Developed an E-commerce web application featuring dynamic product pages, image previews, and cart functionality.
- Created an API-based countries application to fetch and display real-time data with interactive UI.
- Built an interactive dice game using JavaScript to handle logic and DOM manipulation.
- Deployed and managed live applications on Vercel and Netlify.

PROJECTS

Dice Game

🔗 https://dicepinkgame.netlify.app/

- Developed a two-player Dice Game using vanilla JavaScript with full game logic and turn switching.
- Built dynamic score tracking with separate current and total scores for each player, updating in real time.
- Implemented a "Hold" mechanic to bank scores and a rolling "1" penalty that resets the current turn and added a "New Game" reset feature.

Grandeur E-commerce Page

🔗 https://grandeurs.vercel.app/

- Designed and developed a responsive website for Grandeur Treats & Beads, a luxury lifestyle brand.
- Built a multi-section product showcase featuring 7+ categories of bead accessories and food services with optimised media delivery.
- Implemented intuitive navigation with clear calls-to-action across all service sections.
- Integrated customer engagement features including WhatsApp chat, contact details, and Instagram links to drive inquiries.

Countries API Application

🔗 https://countries-app-allk.vercel.app/

- Built a responsive Countries Explorer app using React, consuming a third-party REST Countries API to display global country data.
- Implemented a real-time search feature allowing users to look up any country by name instantly.
- Added region-based filtering functionality enabling users to browse countries by continent/region.

E-commerce Web Application

🔗 https://e-commerce-rho-ashen-63.vercel.app/

- Built a responsive E-commerce product page for a sneaker brand featuring product image galleries with thumbnail navigation and a lightbox preview.
- Implemented a fully functional cart system allowing users to add, adjust quantity, and manage items dynamically.
- Developed an interactive UI with a mobile-friendly navigation menu, discount pricing display, and smooth image carousel.

SKILLS

Front-End:

- HTML5 & CSS3.
- JavaScript (ES6+) & React.
- Node.js
- Responsive Design (Mobile-First, Flexbox, CSS Grid).
- REST API Integration.

Tools:

- Git & GitHub.
- VS Code & Chrome DevTools.
- Deployment (Vercel , Netlify, Render).
- Parcel (Module Bundler).

EDUCATION

Bachelor of Science(B.Sc.) in Computer Science — March 2024 - Present
Ladoke Akintola University of Technology (LAUTECH).
